PAGABO®

HOLLIS

National Framework for Professional Services in Construction and Premises

Pagabo is a procurement organisation which offers a range of contractor and consultant services to public and private sector organisations throughout the UK.

The Pagabo Professional Services Framework is contracted via the Education Alliance and provides its users with a quality selection of consultancy, surveying, technical advisory and management services for their built environment projects up to any value.

The Framework is fully compliant with UK public sector procurement regulations and is free to access and simple to use. It offers clients a straightforward route to appointing Hollis on single or multi service commission via Direct Award and appointment can be via any contract type – JCT, NEC or bespoke.

Social Value is integral to the Pagabo framework mechanism and is supported at all stages of contract delivery. Social Value reporting software, Loop, is also provided on every Pagabo-supported project, free of charge.

Hollis has been an appointed supplier to Pagabo since 2020. Their transparency, flexibility and procurement excellence provides the ideal framework for us to deliver collaborative and dynamic service solutions for our clients.

Benefits of using the framework to appoint Hollis

Bespoke

Select our services in any number or combination to suit your project needs

Local

A team of over 500 delivering our full range of expertise from 19 UK offices – offering national resources with local market insight in every major UK city and region.
